California Proposition 65 statement (Release Date: July 31, 2026)

Rotterdam Olefins and Polyolefins B.V. ("ROP") hereby confirms that, to the best of its knowledge and based on information available at the time of supply, the products purchased from ROP do not contain chemicals listed under the California Safe Drinking Water and Toxic Enforcement Act of 1986 ("California Proposition 65") in concentrations that wou require a warning under applicable California law.

The products supplied by ROP are polymer products. Under normal and reasonably foreseeable conditions of use, polymeric materials are not intended to release hazardous substances. ROP further confirms that no California Proposition 65 listed substances are intentionally added as components of the polymer formulation, including monomers, additives, stabilizers, or processing aids, in concentrations that would trigger a Proposition 65 warning requirement.

ROP monitors relevant regulatory developments, including updates to the California Proposition 65 chemical list, and reviews available product information as necessary to support its ongoing product stewardship and compliance efforts.

Disclaimer

This statement is provided for informational purposes only and is based on information available to ROP as of the date of issuance. It is provided without warranty of any kind, whether express or implied.

Customers and downstream users remain solely responsible for evaluating the suitability of the products for their intended applications and for determining compliance with all applicable laws and regulations, including California Proposition 65 requirements, based on their specific processing conditions, uses, and potential exposure scenarios.

This document is intended solely to provide general information regarding the safe handling, use, processing, storage, transportation, disposal, and release of the products supplied by ROP.

The information contained herein does not constitute, and shall not be construed as, a warranty, guarantee, representation, certification, or product specification of any kind, whether express or implied, including, without limitation, any implied warranties of merchantability, fitness for a particular purpose, non-infringement, or regulatory compliance.

In addition to any restrictions specifically identified in this document, ROP reserves the right, at its sole discretion, to prohibit or restrict the sale of its products for certain applications or end uses.
