

California Proposition 65 statement

Release : December 8, 2025

AdvyForm E1800

Internal ref. number 1Q082, BEN8535

Rotterdam Olefins and Polyolefins B.V. ("**ROP**") hereby verifies that, to the best of its knowledge and based on information available at the time of supply, the product purchased from ROP do not contain chemicals listed under the California Safe Drinking Water and Toxic Enforcement Act of 1986 (California Proposition 65) in amounts that would require a warning.

The products supplied by ROP are polymer products. Under normal and reasonably foreseeable conditions of use, polymeric materials are not intended to release hazardous substances. ROP confirms that no Proposition 65 listed substances are intentionally added as components of the polymer, including monomers, additives, stabilizers, or processing aids, in concentrations that would trigger a Proposition 65 warning requirement.

ROP monitors relevant regulatory developments, including updates to the Proposition 65 chemical list, and reviews product information as necessary to maintain compliance.

This statement is provided **without warranty, express or implied**, and does not relieve customers or downstream users of their responsibility to evaluate Proposition 65 compliance for their specific applications, processing conditions, or exposure scenarios.
