Subjects : Rebranding AdvyForm E1800 (Moplen EP600V)

Dear Customer,

As previously communicated by the Velogy Sales Organization, Rotterdam Olefins & Polyolefins B.V. (ROP) is required to update the nomenclature of its product portfolio.

Please note that this change relates exclusively to the product name. There are no changes to the product itself, including:

- Formulation / recipe
- Production process
- Manufacturing location or source
- Specifications, performance, or quality
-

Accordingly, the product marketed under its new name, AdvyForm E1800, is fully identical in all respects to the product previously marketed as Moplen EP600V.

Due to IT system constraints during the transition period, some documentation (e.g., Certificates of Analysis, shipping documents, and related records) may contain either the old product name, the new product name, or both names.

We apologize for any inconvenience this may cause within your quality or documentation systems.

We trust that the information provided above is sufficient to support the acceptance of the related shipments. Should you require any additional information or assistance, please do not hesitate to contact us through the Regulatory Inquiry Portal.

Kind regards,

Velogy Product Safety Department
